

Key Knowledge

In this unit, you will learn to:

- change font style, size, and colours for a given purpose
- edit text
- choose the best locations for my content
- paste text and images to create a magazine cover
- make changes to content after you've added it

Key Vocabulary

<b>text</b>	data in the form of words or alphabetic characters	<b>orientation</b>	positioning, e.g. portrait or landscape
<b>font style</b>	a graphical representation of text that may include a different typeface, point size, weight, colour, or design	<b>placeholder</b>	a character, word, or string of characters that temporarily takes the place of the final data
<b>template</b>	a sample document that has already some details in place	<b>content</b>	graphics or data
<b>layout</b>	calculating the position of objects in a space
