Chicks in school!

This week we have been watching the Reception eggs hatch and meeting the baby chicks!

We all had chance to go to see the eggs in the incubator and think about who or what was in them.

In class we kept the live stream on our interactive white board so that we could check in with them whenever we wanted to.

Then, on Friday, we had the best time as the 10 chicks came to spend the morning with us in nursery. We all got to hold them and watch as they played.

What a magical week it has been!
